

## HALF HEIGHT SERVER RACKS

**4Cabling** provide high quality half height server racks. This is the most popular server rack & data cabinet size in the industry. They are mostly used for small office applications like holding audio-visual equipment, or network communications. The **4Cabling** half height server racks enable you to integrate all of your OEM & networking devices into one cabinet. The tough construction makes sure and lockable doors make sure all of the devices are kept safe & secure. **4Cabling** half height racks come in various depths from 600mm, 800mm, and 1000mm and are available in three different heights; 18RU, 22RU and 27RU. All **4Cabling** data cabinets include free shipping Australia wide & come supplied fully assembled as a complete all in one solution.
