PHASE ISOLATED STRAIGHT PLUGS

Unique patented design

The 4Cabling industrial power plug is a movable connector attached to an electrical power cord. This new patent pending* design isolates the wire within the housing structure which allows the measurement of the current in a safe and easy manner using a clamp-on meter.

KEY FEATURES

- Unique patent pending design (Patent application number: 2021901960)
- Available in 20A and 32A options
- Suitable for medium to large single phase and three phase loads
- Easy cable entry
- Quick assembly with a screw ring for securing to socket outlets and to ensure IP66 rating
- 3-year warranty
- High local stock levels
- Fast delivery across Australia

SPECIFICATIONS

- Locking rings to ensure IP66 rating
- All plugs have impact resistant, UV stabilised mouldings with high quality resins
- Premium grade stainless steel and brass internal mechanisms ensure reliable operation in harsh conditions
- Transparent pin surround provides quick and sure location of plug in socket and protection of pins
- Compliances:
AS/NZS 3123:2005 Inc A1
AS/NZS 3100:2017 Inc A1-3

- Strong cord clamp and body sleeve connection
- Wide lock-ring is easy to unscrew from sockets (ideal for operating while wearing protective gloves)
- Plugs feature locking rings to ensure they do not fall out and to maintain IP ratings
- 3-year warranty
- High local stock levels
- Fast delivery across Australia

APPLICATION

- Perfect for data centers or anywhere that power monitoring is required.
