Description

USB to DB9 Serial Converter RS232

Easily connect serial devices through a USB port. The USB Serial Converter operates as a bridge between one USB port and a standard RS-232 Serial port. You simply connect the cable to your PC or Hub's port, and it can connect any RS-232 devices, such as PDA, scanner, printer, etc. This adaptor has a great reputation for quality and compatibility and is one of the best in the Australian market. It supports Windows 7, Windows 8, and Windows 10.

FEATURES

- Compliant with the USB 1.1 and 2.0 specification
- Supports RS-232 serial Interface
- Supports 500 kbps data transfer rate
