Olight Warrior 3S 2300 Lumen Tactical Torch | Rechargeable | 300m

The Warrior 3S is a powerful dual-switch tactical flashlight with a proximity sensor. A cool white LED paired with a TIR optic lens delivers up to 2,300 lumens. It features 6 output settings that can be selected on demand using the side switch.

The newly adopted proximity sensor drops the brightness level proactively in case of obstruction. The bezel is also less aggressive than before for a more comfortable pocket-carry experience. Its tailcap is compatible with an optional lock-on dual-button remote switch for WML application. Powered by a 5000mAh 21700 battery, it charges easily by the MCC3 cable. The 4-level battery and brightness indicators around the side switch always keep you informed about its status.

FEATURES

- **Leading Performance:** Its cool white LED, paired with the TIR optic lens, delivers up to 2,300 lumens of output, reaching far into the darkness and illuminating any environment
- **Long Runtime Tactical Flashlight:** up to 55-days of runtime making this the perfect tactical light for hiking, camping, self-defense, and law enforcement!
- **Visualized Indicator Interface:** 4-level battery and brightness indicators around the side switch, giving real-time reminders with a glance
- **Safe & Reliable:** Built-in proximity sensor that drops the brightness level, protecting against any nearby objects while turned on high, turbo or strobe mode
- **Compact & Convenient:** Easy in, easy out. A smoother strike bezel and two-way pocket clip makes pocket carrying a breeze.

Note: The proximity sensor can be disabled by double-pressing the side switch within 5 seconds of auto-dimming.
