Mercku M2 Standalone Queen Wi-Fi Router Mesh System

She's called Queen for a reason!

The Mercku Standalone Queen Router is powerful and performs 20% faster than best-in-class routers on the market.

By utilising the innovative WHEMS antenna and groundbreaking transceiver technology, Mercku products effectively decrease environmental noise and eliminate interference, which results in an increase of data throughput and communication efficiency.

Never again will bandwidth hogging slow you down. Powerful enough to support up to 60 devices with minimal degradation to the Wi-Fi experience, and multiple 4K streaming. Mercku makes buffering a thing in the past.

A Queen Router **covers up to 278 sqm**, suitable for small home, apartments, small cafes/ restaurant.

Check out this Mercku review here.

Features:

1. **Easy to install**: Automatic mesh network connection with one click.
2. **Super Range**: Seamless surfing with one Wi-Fi SSID and full coverage with the mesh system.
3. **Great Design**: Award-winning router design.
4. **Flexible Nodes**: Modular design to support a variety of network structures of any building. Supports up to 60 devices.
5. **Fastest Speed**: Dual-band Wi-Fi connectivity for smooth 4K streaming and VR games.
6. **SmartApp Management**: Remote App control, removing user and parental control.
7. **Best Throughput**: full advantage of MIMO with high-efficiency throughput in wide band.
8. **High-Quality Linkage**: Low ECC brought by WHEMS Antenna lowers the bit error rate of data transmission.
