4C | Flat Head Self Drill Screws 10G x 16mm Box of 500

Flat head self drive screws are literally as sharp as drill bits, able to drill sheet metal up to 4mm thick. Protected with Gold zinc lubricated coating with Class 2 corrosion resistance properties. Ideal for light gauge sheeting, cladding panels, sections and assemblies, timber and plasterboards. Manufactured as per the Australian Standards: AS 3566 and AS/NZS 4411-2015.

Features and Benefits

Comes with self drilling hardened point for fast insertion and self centered start. Precision thread design for homogeneous load distribution. Can drill up to 4mm with 18kg load and 2200rpm fast drill

Application

Most popular screws for fast driving into thin gauge sheet metal, Cladding panels and sections of assemblies.
