4C | Pan Head Self Drill Screws 6G x 20mm Box of 500

Our high performance Pan Head Screws come with hardened self drill point, available for use in many applications; light gauge sheeting, cladding, steel framing and wooden applications. Protected with Gold zinc lubricated coating with Class 2 corrosion resistance properties. Manufactured as per the Australian Standards: AS 3566 and AS/NZS 4411-2015.

Features and Benefits

Self drilling for quick insertion and a self centered start. Precision homogeneous thread provides a constant and even clamping load. Slim profile high strength shanks designed for fast drilling up to 2200rpm.

Application

Designed for general purpose fastening, light steel and general purpose sheet metal where a neat and clean finish is required.
