TP-Link EAP620 HD | AX1800 WiFi 6 Wireless Dual Band Ceiling Mount Access Point

Introducing the TP-Link EAP620 HD, the ultimate solution for seamless, lightning-fast Wi-Fi 6 connectivity. With blazing speeds of 1775Mbps, split between 574Mbps on the 2.4GHz band and an impressive 1201Mbps on the 5GHz band, you'll experience unparalleled performance for all your online activities. Say goodbye to frustrating lag and buffering with this cutting-edge access point.

But speed is just the beginning. The EAP620 HD boasts high-density connectivity, offering a fourfold increase in capacity to effortlessly handle multiple devices simultaneously. Whether you're streaming, gaming, or video conferencing, you can trust that every device on your network will experience smooth, uninterrupted connectivity.

Equipped with Omada SDN integration, this access point brings unparalleled convenience and control to your network management experience. Enjoy features like Zero-Touch Provisioning (ZTP), centralized cloud management, and intelligent monitoring, all accessible through the Omada app or cloud portal for effortless management from anywhere, at any time.

And with seamless roaming capabilities, your connection remains stable and reliable even as you move throughout your space. Stream videos or make voice calls without interruption, thanks to the EAP620 HD's advanced roaming technology.

For easy deployment, the EAP620 HD supports Power over Ethernet (PoE+), eliminating the need for separate power cables and allowing for flexible installation options. Plus, with robust guest network security features, including multiple authentication options and advanced wireless security technologies, you can ensure that your network remains safe and secure at all times.

FEATURES

- Ultra-fast Wi-Fi 6 speeds: 574Mbps on 2.4GHz, 1201Mbps on 5GHz
- High-density connectivity: 4x increased capacity
- Omada SDN integration: Zero-Touch Provisioning, centralized cloud management, intelligent monitoring
- Seamless roaming: Uninterrupted connectivity as you move
- PoE+ support: Convenient deployment and installation
- Secure guest network: Multiple authentication options, advanced security technologies

SPECIFICATIONS

- Wi-Fi Standards: Wi-Fi 6 (802.11ax)
- Wireless Speeds: 2.4GHz: Up to 574Mbps, 5GHz: Up to 1201Mbps
- PoE Standard: 802.3at (PoE+)
- Management: Omada Cloud, Omada App
- Security: WPA/WPA2-Enterprise, Captive Portal Authentication, SMS/Facebook Wi-Fi/Voucher authentication
- Dimensions: 206 × 206 × 37mm
- Mounting: Ceiling mount

WARRANTY

1-year limited warranty
