### Description

## Cable Cover for Carpet 900mm Black

A cost-effective, lightweight and simple solution to covering up cables around the home or office. The 900mm black cover has Hook and loop fasteners on the bottom that grab hold of the carpet. Simply lay it over the offending cords and the filament hooks grip the carpet, offering a low-profile solution to hazardous cords and cables.

We don't recommend the product for cut-pile carpets, as this carpet has the normal loops cut and therefore they are not

available for the hooks to cling onto. We also don't recommend for use with wool carpets as they are usually more delicate than standard nylon carpets.
