Description

TP-Link MC1400: 14-Slot Rackmount Chassis

The TL-MC1400 14-Slot Rack-mount Chassis is specially designed to accommodate 14 TP-LINK's Media Converters for central power supply, saving space and power cables. Continuous operation is of great importance to fiber communication, so the chassis is equipped with optional redundant power supply and Hot-Swapping function which allows installing/removing the converter/power supply without powering off the chassis. Moreover, to stabilize the performance and extend the lifetime, two cooling fans are installed internally. Together with MC series Gigabit / Fast Ethernet media converters, TL-MC1400 is the ideal solution for your media conversion network.

* For TP-LINK Media Converters, TL-MC1400 supports MCXXX ver:2.0 and above, not ver:1.0."

FEATURES

- 14 bays to house up to 14 media converters
- Hot-Swappable; easy & quick replacement of converter and power supply
- Mounted two cooling fans for better ventilation

SPECIFICATIONS

- AC Power Supply: 100-240VAC, 50/60Hz
- Power Output: 9V/0.6A Per Slot
- Dimensions (W*D*H): 482*358*86MM. Standard 19-Inch, 2U height
- Operating Temperature: 0°C~40°C (32°F~104°F)
- Storage Temperature: -40°C~70°C (-40°F~158°F)
- Operating Humidity: 10%~90% non-condensing
- Storage Humidity: 5%~90% non-condensing

WARRANTY

3-year limited warranty

WHY 4CABLING?

- Australia's leading importer & wholesaler of 19" server racks, copper, ethernet cable, fibre optic leads & structured networking products
- ISO 9001, NSW Govt. & GITC (QLD Govt.) approved supplier
- Secure online shopping 24/7
- A loyal customer base of 100k+ who trust us for their data & electrical needs
- Over 3000 quality products in stock ready to go
- All products are approved as per local Australian standards
- Warranty & peace of mind return policy
- Lightning fast delivery nationwide
- Expert advice
- Proudly 100% Australian owned & operated
