4C | Industrial Phase Isolated Straight Plug IP66 250V 3Pin 20A

This industrial power plug is a movable connector attached to an electrical power cord.

When using a standard plug, measuring the current drawing via the live lead requires the live wire to be isolated from the power cord by an electrician. This new Patent-pending* design isolates the wire within the housing structure which allows the measurement of the current in a safe and easy manner using a clamp-on meter.

FEATURES

- Easy to use
- Save time where frequent current measurement is needed
- Perfect for data centers or anywhere that power monitoring is required.
- 3 round Pins
- Rated at 20A ([Also available in 32A](#))
- Ingress protection: IP66
- Unique patent-pending design (*Patent application number: 2021901960)

WARRANTY

3-year limited warranty

WHY 4CABLING?

- Australia's leading importer & wholesaler of 19" server racks, copper, ethernet cable, fibre optic leads & structured networking products
- ISO 9001, NSW Govt. & GITC (QLD Govt.) approved supplier
- Secure online shopping 24/7
- A loyal customer base of 100k+ who trust us for their data & electrical needs
- Over 3000 quality products in stock ready to go
- All products are approved as per local Australian standards
- Warranty & peace of mind return policy
- Lightning fast delivery nationwide
- Expert advice
- Proudly 100% Australian owned & operated
