# TP-Link TL-PA9020P KIT AV2000 2-Port Gigabit Passthrough Powerline Twin Pack

Take your powerline networking to the next level with advanced HomePlug AV2 MIMO, the TL-PA9020p delivers a high speed of up to 2000Mbps over powerline to provide superior network performance that supports all of your online needs. With a lag-free Connection, you will never miss out again.

## FEATURES

- HomePlug AV2 standard compliant, high-speed data transfer rates of up to 2000 Mbps<sup>1</sup>, supports all your online needs
- 2X2 MIMO with Beamforming establishes multiple simultaneous connections for you to enjoy higher powerline speeds and greater stability
- 2 x gigabit ports create secure wired networks for desktops, smart TVs, or games consoles
- Integrated power socket ensures no power outlet goes to waste
- Plug and play, no configuration required
- Patented Power-Saving Mode automatically reduces power consumption by up to 85%<sup>2</sup>

### An Exclusive Fast Lane for Your Favorite Devices

The TL-PA9020p creates fast, high-performance wired connections that support all of your favourite devices, like 4K HDTV. Now you can plug in to enjoy an exclusive fast lane out of a crowded network without slowing down.

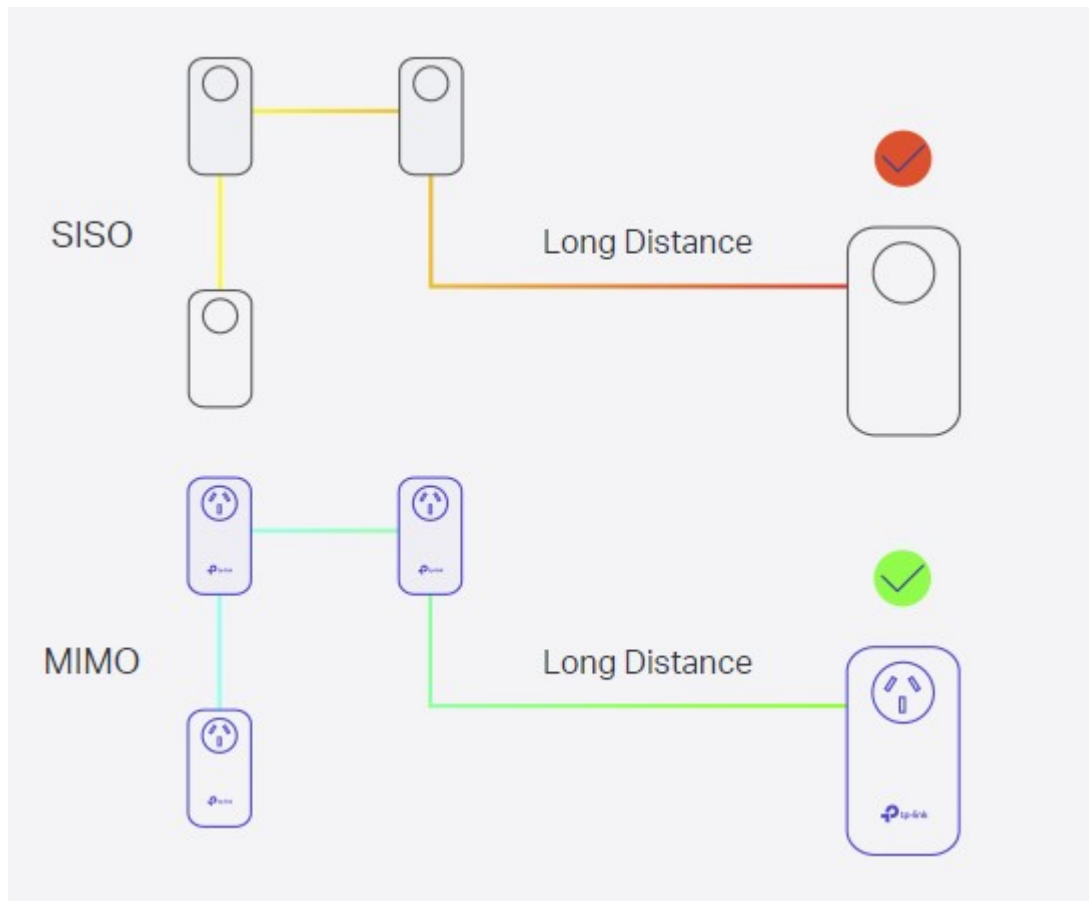

### Fluid Streaming and Gaming with 2X2 MIMO

2X2 MIMO with Beamforming Technology significantly improves speeds, especially during peak hours.

**More Stable Connections:** 2X2 MIMO is like adding extra lanes to a highway. It establishes multiple simultaneous connections for you to enjoy higher speeds and greater stability.

**Enhanced Long Distance Performance:** 2X2 MIMO with Beamforming Technology also offers the benefit of improved coverage throughout the home, particularly for previously hard-to-reach outlets.

## Wiring up with Gigabit Speeds

Connect to Gigabit speeds for your smart TVs, game consoles, computers and network attached storage devices. Just use an Ethernet cable to attach your devices to the Powerline adapter to get started!

## Simplified Network for a Better Life

### Plug, Pair, and Play!

1. First, connect your TL-PA9020P to the router
2. Then, plug in another one wherever you need extra coverage
3. Finally, press the "Pair" button on each adapter

**Congratulations! You are ready to enjoy seamless wired connections.**

## No Power Outlets Going to Waste

The integrated power socket means that you can still get power from the outlet for your other devices. Simply plug your device into the integrated socket the same way you would with a normal wall outlet. The built-in noise filter also helps to eliminate electrical signal noise that might otherwise affect powerline transmission performance.

<sup>1</sup>The theoretical maximum channel data transfer rate is derived from HomePlug AV2 specifications. The actual data transfer rate will vary from network environment including distance, network traffic, noise on electrical wires, building material, and construction, quality of electrical installation, and other adverse conditions.

<sup>2</sup>The Power Saving feature takes effect when your appliances are disconnected or turned off. Actual power-saving data will vary in different network conditions and environments.

<sup>3</sup>Compatible with all HomePlug AV and AV2 Standard Powerline adapters. This product may not be compatible with routers or gateways with firmware that has been altered, is based on open-source programs, or are non-standard or outdated.

## WARRANTY

3-year limited warranty

## WHY 4CABLING?

- Australia's leading importer & wholesaler of 19" server racks, copper, ethernet cable, fibre optic leads & structured networking products
- ISO 9001, NSW Govt. & GITC (QLD Govt.) approved supplier
- Secure online shopping 24/7
- A loyal customer base of 100k+ who trust us for their data & electrical needs
- Over 3000 quality products in stock ready to go
- All products are approved as per local Australian standards
- Warranty & peace of mind return policy
- Lightning fast delivery nationwide
- Expert advice
- Proudly 100% Australian owned & operated
