TP-Link TL-PA8033P KIT AV1300 3-Port Gigabit Passthrough Powerline Twin Pack

Advanced HomePlug AV2 technology means the TL-PA8033P KIT supports 2x2 MIMO* with beamforming, so users benefit from ultra-fast data transfer speeds of up to 1300Mbps. Perfect for bandwidth-demanding activities like streaming Ultra HD video to multiple devices simultaneously, online gaming, and large file transfers.

*The MIMO functionality within HomePlug AV2 significantly improves data transfer rates, especially during peak periods.

FEATURES

- HomePlug AV2 standard compliant, high-speed data transfer rates of up to 1300Mbps¹, supports all your online needs
- Line-Neutral/Line-Ground 2x2 MIMO with Beamforming ensures a larger range, higher transmission capacity, and more stable connections
- 3-gigabit ports create secure wired networks for desktops, smart TVs, or games consoles
- Integrated power socket ensures no power outlet goes to waste
- Plug and play, no configuration required
- Patented Power-Saving Mode automatically reduces power consumption by up to 85%²

3 Gigabit Ports for Maximum Connectivity

With 3 gigabit Ethernet ports, TL-PA8033P KIT can simultaneously connect up to 3 wired-only devices. This makes the TL-PA8033P KIT the perfect home entertainment companion. Connect any 3 devices from smart TVs and game consoles to NAS boxes and computers to the Internet at the same time. Just plug the Ethernet cable into the powerline and away you go!

Connect to Gigabit speeds for your smart TVs, game consoles, computers and network attached storage devices. Just use an Ethernet cable to attach your devices to the Powerline adapter to get started!

Plug, Pair, and Play!

1. First, connect your TL-PA8033P to the router
2. Then, plug in another one wherever you need extra coverage
3. Finally, press the "Pair" button on each adapter

Congratulations! You are ready to enjoy seamless wired connections.

No Power Outlets Going to Waste

The integrated power socket means that you can still get power from the outlet for your other devices. Simply plug your device into the integrated socket the same way you would with a normal wall outlet. The built-in noise filter also helps to eliminate electrical signal noise that might otherwise affect powerline transmission performance.

¹ The theoretical maximum channel data transfer rate is derived from HomePlug AV2 specifications. The actual data transfer rate will vary from network environment including distance, network traffic, noise on electrical wires, building material, and construction, quality of electrical installation, and other adverse conditions.

² The Power Saving feature takes effect when your appliances are disconnected or turned off. Actual power-saving data will vary in different network conditions and environments.

³ Compatible with all HomePlug AV and AV2 Standard Powerline adapters. This product may not be compatible with routers or gateways with firmware that has been altered, is based on open-source programs, or are non-standard or outdated.

WARRANTY

3-year limited warranty

WHY 4CABLING?

- Australia's leading importer & wholesaler of 19" server racks, copper, ethernet cable, fibre optic leads & structured networking products
- ISO 9001, NSW Govt. & GITC (QLD Govt.) approved supplier
- Secure online shopping 24/7
- A loyal customer base of 100k+ who trust us for their data & electrical needs
- Over 3000 quality products in stock ready to go
- All products are approved as per local Australian standards
- Warranty & peace of mind return policy
- Lightning fast delivery nationwide
- Expert advice
- Proudly 100% Australian owned & operated
