TP-Link | TL-SG1005P | 5 port Gigabit Desktop Switch with 4 Port PoE
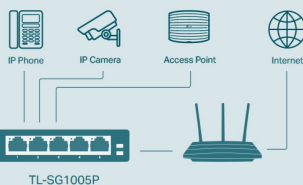

Product Images
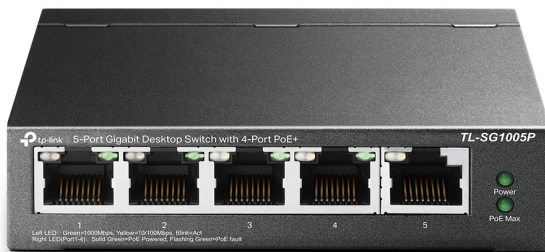

TP-Link TL-SG1005P | 5 port Gigabit Desktop Switch with 4 Port PoE

The TP-Link TL-SG1005P is a 5-port Gigabit Desktop Switch featuring 4 PoE ports, allowing for the seamless transfer of data and power through a single cable. Its 5 10/100/1000Mbps RJ45 ports provide high-speed connectivity for home and office networks. It is compatible with IEEE 802.3af/at compliant PDs, enabling the expansion of your network effortlessly.

With the support of 802.1p/DSCP QoS, this switch ensures smooth and efficient handling of latency-sensitive traffic, guaranteeing optimal performance for applications such as video streaming and VoIP calls. Each PoE port can deliver up to 30W of power, while the total power available across all PoE ports is 56W, providing sufficient power for connected devices.

The TL-SG1005P is a plug-and-play switch that requires no configuration or installation, making it incredibly user-friendly. Simply connect your devices, and you're ready to go, saving you time and effort in the setup process. Experience the convenience and efficiency of the TL-SG1005P in enhancing your network connectivity at home or in the office.

FEATURES

- 5 10/100/1000Mbps RJ45 ports
- With four PoE ports, transfers data and power on one single cable
- Working with IEEE 802.3af/at compliant PDs expands home and office network
- 802.1p/DSCP QoS enables smooth latency-sensitive traffic
- Supports PoE Power up to 30W for each PoE port
- Supports PoE Power up to 56W for all PoE ports
- Requires no configuration and installation
