Support up to 3A to fully charge your mobile phone quickly

Fast, but Safe

Safely control the current output within 3A to avoid damage to your devices

2M USB 3.2 (3.1 GEN 2) USB A Male to USB Type C Male Cable | Supports 10Gbps and 60W

This cable is not just any ordinary cable! It's a high-quality USB 3.2 (3.1 Gen 2) Type-C M to USB AM cable that can support 10Gbps data transfer speeds and 60W fast charging. It allows you to connect your USB Type-C enabled devices like MacBook, Chromebook Pixel, Samsung Galaxy A10e, A20, A50, A51, A71, S21, S22, S23 and Galaxy Note 7 and more, with standard USB Type-A enabled devices like car/wall charger, external battery power bank, etc.

With its reversible design, you can easily insert the Type-C connector into any Type-C-enabled device without worrying about which side is up. The cable is also super soft and flexible, making it easy to carry around without any hassle.

One of the key features of this cable is its integrated moulding technology. The aluminium alloy housing is seamlessly integrated with plastic, making it more durable and eco-friendly without any glue. This ensures that the cable will last you a long time without any wear and tear.

Overall, this USB 3.2 (3.1 Gen 2) Type-C M to USB AM cable is perfect for charging and powering your USB Type-C-enabled devices, as well as syncing data, photos, and music. It's compliant with USB 3.1 Gen 2, backwards compatible with USB 3.0 and 2.0, and supports USB C Cable Fast Charging with 3A, 20V, total of 60W. Don't miss out on this fantastic cable that offers both style and substance!
