Description

2m Premium High Speed HDMI® Extension cable M-F |

Supports 4K@60Hz as specified in HDMI 2.0

This High-Speed HDMI extension Cable with Ethernet supports the latest audio and video technologies, including Dolby TrueHD and DTS-HD Master Audio, for a superior audio experience. It also supports 4K 60Hz resolution, providing stunning visuals that rival commercial movie theaters. With its 3D support, you can enjoy immersive gaming and home theater applications. The HDMI Ethernet Channel adds high-speed networking to an HDMI link, eliminating the need for a separate Ethernet cable. Plus, with HDCP compliance and an Audio Return Channel, this cable is the ultimate solution for your audio and video needs.

FEATURES

- Supports resolutions up to 4K2K@60hz, which is 4 times higher than 1080p @60Hz
- Data transfer rate up to 18Gb/s
- Supports Dolby® TrueHD and DTS-HD Master Audio™
- HDCP compliant
- HDMI Ethernet Channel – Adds high-speed networking to an HDMI link, allowing users to take full advantage of their IP-enabled devices without a separate Ethernet cable. (only high-Speed HDMI with ethernet supports this function)
- Audio Return Channel – Allows an HDMI-connected TV with a built-in tuner to send audio data "upstream" to a surround audio system, eliminating the need for a separate audio cable
- Support 3D – Defines input/output protocols for major 3D video formats, paving the way for true 3D gaming and 3D home theater applications
- Support 4K resolution – Enables video resolutions far beyond 1080p, supporting next-generation displays that will rival the Digital Cinema systems used in many commercial movie theatres

WARRANTY

1-year limited warranty
