Convert Fiber to Ethernet or Vice Versa

TP-Link | MC200CM: Media Converter RJ45-SC GIGABIT Multimode

The MC200CM is a media converter designed to convert 1000BASE-SX fibre to 1000Base-T copper media or vice versa. Designed under IEEE802.3ab 1000Base-T and IEEE802.3z 1000Base-SX standards, the MC200CM is designed for use with multi-mode fibre cable utilising the SC-Type connector. The MC200CM supports shortwave (SX) laser specification at a full wire speed forwarding rate. It works at 850nm on both transmitting and receiving data.

Other features of this module include the ability to be used as a stand alone device (no chassis required) or with TP-LINK's system chassis, Auto MDI/MDI-X for TX port, and front panel status LEDs. The MC200CM will transmit at extended fibre optic distances utilising multi-mode fibre up to 0.55 kilometres.
