TP-Link Archer AX55 AX3000 Dual-Band Wi-Fi 6 Router

Upgrade your home Wi-Fi network with the Archer AX55 AX3000 Dual Band Gigabit Wi-Fi 6 Router - the next-gen router for faster streaming and downloads.

With a blazing-fast speed of 2402 Mbps on the 5 GHz band and 574 Mbps on the 2.4 GHz band, the Archer AX55 delivers smoother streaming and faster downloads for all your devices. Say goodbye to buffering and lagging and enjoy seamless online experiences.

The Archer AX55 is designed to connect more devices than ever before with OFDMA technology. This cutting-edge feature increases capacity by four times, enabling simultaneous transmission to more devices, so everyone in your household can enjoy a fast and stable connection.

For gamers and video chat enthusiasts, the Archer AX55's ultra-low latency ensures a more responsive experience. Say goodbye to lag and latency issues, and hello to smooth and seamless online experiences.

With four high-gain external antennas and Beamforming technology, the Archer AX55 extends strong, reliable Wi-Fi coverage throughout your home. Enjoy an expanded Wi-Fi coverage area, no matter where you are in your home.

Security is a top priority when it comes to your network, and the Archer AX55 has got you covered with TP-Link HomeShield. This advanced security feature defends against the latest cyber threats, ensuring your network and data are always secure.

Target Wake Time (TWT) technology helps your devices to communicate more while consuming less power, improving battery life and helping you to save on your electricity bill.

Want to control your router with your voice? The Archer AX55 is compatible with Alexa, allowing you to make your life smarter and easier with Amazon Alexa. Simply use voice commands to control your router and enjoy hassle-free operation.

The Archer AX55 supports OneMesh™ to form seamless whole-home coverage, preventing drops and lag when moving between signals. Expand your coverage area and eliminate dead spots with OneMesh™ technology.

Upgrade to the Archer AX55 AX3000 Dual Band Gigabit Wi-Fi 6 Router today and experience faster speeds, expanded coverage, improved security, and more. Transform your online experience and enjoy the power of next-gen Wi-Fi technology.

FEATURES

- Next-Gen Gigabit Wi-Fi 6 Speed—2402 Mbps on 5 GHz and 574 Mbps on 2.4 GHz band ensure smoother streaming and faster downloads
