Description

96 Fibre FOBOT Dome Closure | IP68 Rated

Dome Closures are designed to be the perfect re-enterable joining closure for use in Aerial, Pole, Wall Mount and Under-ground Fibre Optic Splicing applications.

The closure has been made from high-quality Poly-Carbonate and features an easy to use clamp with a Silicon Rubber seal entry. The kit also includes all the accessories you need during termination, including Sealant Lined Heat-Shrink Tubing.
