Description

KVM 1080P@60HZ HDMI Extender over CAT6 up to 70 Meters

Experience seamless HD video transmission with the KVM 1080P@60HZ HDMI Extender over CAT6! This advanced point-to-point extender offers zero latency and supports resolutions of up to 1080P@60Hz. With a transmission distance of up to 70 meters via CAT6/6A cables, you can extend your HDMI signals without compromising on quality.

The extender includes a transmitter unit (TX) and a receiver unit (RX), working together as a pair. Housed in a sturdy metal enclosure, it provides durability and protection for your equipment. Additionally, built-in lightning, surge, and ESD protection

safeguards your devices from power fluctuations and electrical surges.

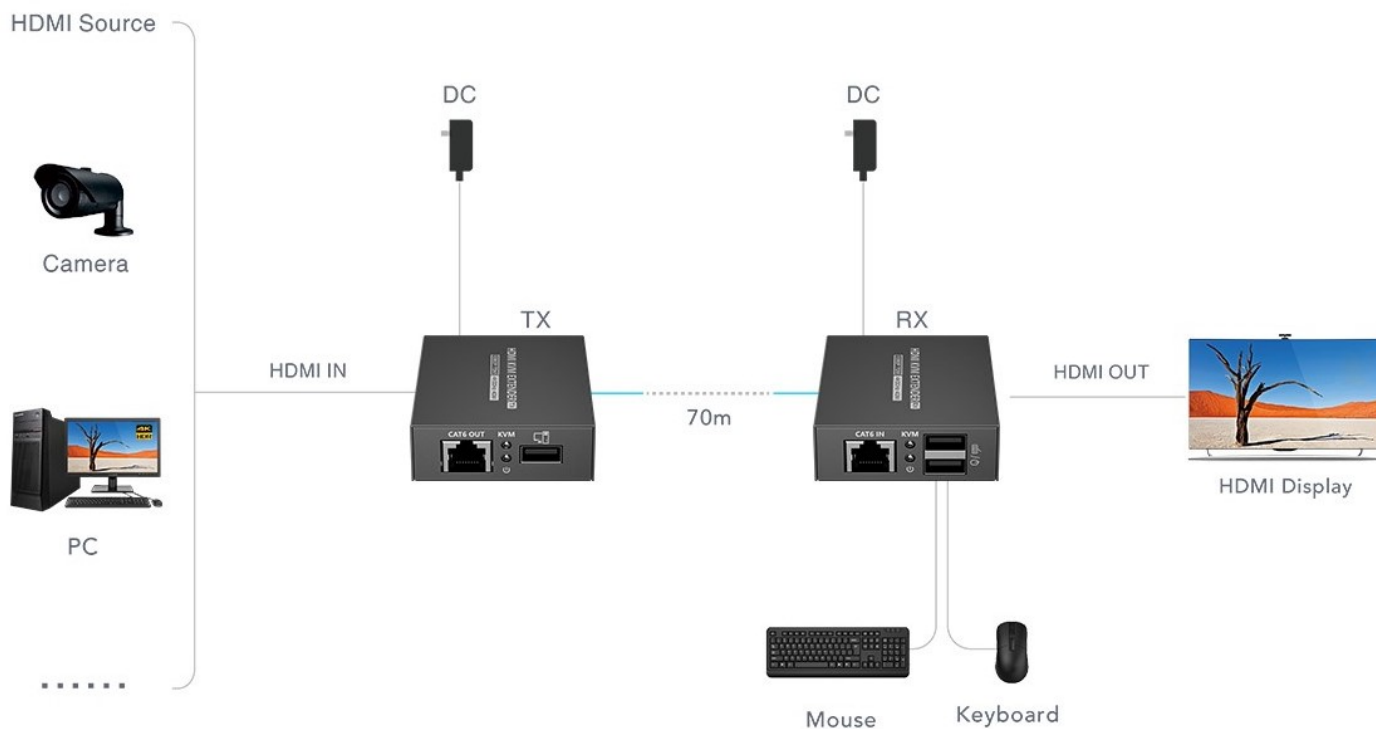

With KVM control support, this extender is perfect for real-time monitoring and management in traffic control centers, monitor centers, and medical institutions. Its adaptive technology ensures the best display performance by automatically adjusting parameters to match different network cables. With high-performance digital chips, it offers reliable and stable signal transmission.

Upgrade your video transmission capabilities today with the KVM 1080P@60HZ HDMI Extender over CAT6 and enjoy uninterrupted, high-quality visuals over long distances.
