# 3m Premium High Speed HDMI® Extension cable M-F | Supports 4K@60Hz as specified in HDMI 2.0

This HDMI cable provides a one-cable solution for many of your home entertainment needs. It can extend your HDMI interface of HDTV to your Blu-Ray Player, 3D Television, Roku, Boxee, Xbox360, PS3, Apple TV, Streaming Player, HD Cable Box, PC or any HD device with an HDMI output. And you can experience high quality audio and video from your home theater.

Upgrade your home entertainment setup with our premium 3M HDMI 2.0 M-F Extension Cable 4Kx2K 60Hz. This versatile HDMI cable provides a convenient one-cable solution for all your audio and video needs. Whether you want to connect your HDTV to a Blu-Ray Player, gaming console, streaming player, or any HD device with an HDMI output, this cable delivers high-quality audio and video for a captivating home theater experience.

With HDMI V2.0 technology, this cable ensures high-speed data transfer rates of up to 18 Gb/s, allowing for seamless streaming of your favorite movies, games, and multimedia content. It supports Dolby® TrueHD and DTS-HD Master Audio™, delivering immersive sound that enhances your viewing pleasure.

Enjoy advanced features such as HDCP compliance, HDMI Ethernet Channel for high-speed networking, and Audio Return Channel for seamless audio transmission between your TV and audio system. This cable also supports 3D video formats, enabling true 3D gaming and home theater applications. Plus, with its ability to support 4K 60Hz resolution, you can enjoy stunning visuals that rival commercial movie theaters.

Upgrade your home entertainment system today with our 3M HDMI 2.0 M-F Extension Cable 4Kx2K 60Hz. Experience high-quality audio, vibrant visuals, and seamless connectivity that will take your entertainment to the next level.

## SPECIFICATIONS

- HDMI V2.0 High speed HDMI cable with ethernet
- Data transfer rate up to 18 Gb/s
- Supports Dolby® TrueHD and DTS-HD Master Audio™
- HDCP compliant
- HDMI Ethernet Channel – Adds high-speed networking to an HDMI link, allowing users to take full advantage of their IP-enabled devices without a separate Ethernet cable. (only high Speed HDMI with ethernet supports this function)
- Audio Return Channel – Allows an HDMI-connected TV with a built-in tuner to send audio data "upstream" to a surround audio system, eliminating the need for a separate audio cable
- Support 3D – Defines input/output protocols for major 3D video formats, paving the way for true 3D gaming and 3D home theater applications
- Support 4K 60Hz resolution – Enables video resolutions far beyond 1080p, supporting next-generation displays that will rival the Digital Cinema systems used in many commercial movie theatres

## WARRANTY

1-year limited warranty
