Description

HDMI® Extender 4K@ 60Hz Support | IR Passback with HDMI Loop Through | Up to 50m

Enhance your audiovisual setup with our HDMI® Extender 4K@60Hz Support. Experience visually lossless transmission for 4K@60Hz HDR content, delivering stunning image quality with vivid colors and exceptional detail. With a transmission distance of up to 50 meters via CAT6/6A cable and zero latency, enjoy seamless synchronization of audio and video signals without any noticeable delays. The extender's IR Passback and HDMI loop out options provide convenient control and enhanced audio

flexibility, making it easy to connect multiple devices seamlessly.

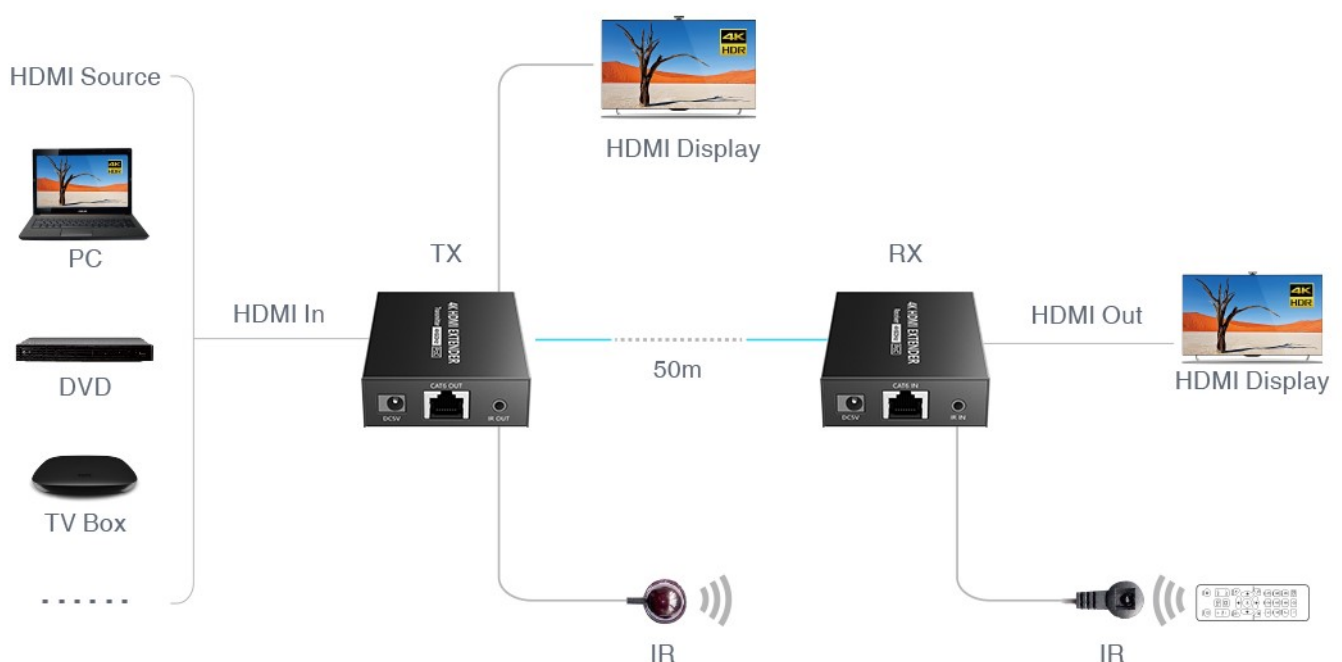

Our HDMI extender ensures durability and protection with its sturdy metal enclosure and built-in Lightning, Surge, and ESD Protection. Auto downscaling capabilities automatically match and output the best display resolution based on the connected display's EDID information. Additionally, it supports multiple audio formats, including LPCM, DTS-HD, DTS-Audio, Dolby Digital, and Dolby Atmos, for an immersive sound experience. With support for ultra-widescreen resolutions such as 21:9, you can enjoy a cinematic viewing experience.

Upgrade your audiovisual system with our HDMI® Extender 4K@60Hz Support and unlock the true potential of your entertainment setup. Experience exceptional image quality, seamless audio-video transmission, and enhanced flexibility in connecting your devices. Elevate your viewing experience to new heights and order now to embark on an audiovisual journey filled with unparalleled excellence.
