Description

TP-Link TL-SG1428P | Jetstream 24 Port 10/100Mbps + 4 Gigabit Smart Switch with 24 Port PoE+

TP-Link smart switch TL-SL2428P is equipped with 24 10/100Mbps RJ45 ports, 4 10/100/1000Mbps RJ45 ports and 2 combo Gigabit SFP slots. All of the 24 10/100Mbps RJ45 ports support the 802.3at/af (PoE+) standard with total PoE power budget of 250 W* and useful PoE power management features. The switch provides high performance, enterprise-level QoS, useful security strategies, and rich layer 2 management features.

TP-Link smart switch TL-SL2428P is a cost-effective product solution for the small and medium business. TL-SL2428P has useful security features. The Storm Control feature protects against Broadcast, Multicast, and Unknown Unicast Storm. Quality of Service (QoS, L2 to L4) provides enhanced traffic management capabilities to move your data smoother and faster. Any more, the easy-to-use web management interfaces, along with SNMP and RMON, mean faster setup and configuration with less downtime. For workgroup and departments requiring cost-sensitive layer 2 switch and gigabit capability, TP-Link smart switch TL-SL2428P provides you with the ideal access-edge solution.

FEATURES

- Features 24 PoE ports, with a total PoE power budget of 250 W* and useful PoE power management features
- Integrated security strategy including 802.1Q VLAN, Port Security, and Storm control help protect LAN area investment
- L2/L3/L4 QoS and IGMP snooping optimize voice and video applications
- WEB/CLI managed modes, SNMP, RMON bring abundant management features
- Dual Firmware Image improves the reliability and uptime of your network
