Description

TP-Link TL-SX3016F | JetStream 16-Port 10GE SFP + L2 + Managed Switch

Introducing the TP-Link TL-SX3016F JetStream 16-Port 10GE SFP+ L2+ Managed Switch, the perfect solution for lightning-fast and secure network connectivity. With its 16 full 10Gbps SFP+ slots and non-blocking 320Gbps switching capacity, this switch provides high-bandwidth aggregation connectivity for your business. Its abundant L2 and L2+ features, such as Static Routing and enterprise-level QoS, ensure optimized network performance and efficient data transmission.

The TP-Link TL-SX3016F prioritizes security with integrated IP-MAC-Port Binding, ACL, Port Security, and 802.1X Authentication. These robust security strategies protect your LAN area investment and defend against unauthorized access and potential threats. Additionally, the switch's dual redundant power supplies offer reliable networking architecture, ensuring uninterrupted network operation and minimal downtime.

Experience convenient and efficient network management with the TP-Link TL-SX3016F. It integrates seamlessly into Omada SDN, providing centralized cloud access and remote management. You can control and monitor your network from anywhere, making administration hassle-free. The switch also offers various standalone management options, including web-based management, CLI, SNMP, RMON, and Dual Image, providing powerful capabilities for configuration and monitoring.

With its full 16-port 10G fiber ports and 320Gbps switching capacity, the TP-Link TL-SX3016F allows you to build a lightning-fast network infrastructure. It is ideal for small, medium, and large business networks, meeting and exceeding the demands for high-speed, reliable, and secure enterprise connectivity. The switch's advanced L3 features enable you to create a highly scalable and robust network environment, suitable for enterprises, campuses, and ISPs.

Ensure seamless and uninterrupted network services with the TP-Link TL-SX3016F's advanced Quality of Service (QoS). You can prioritize voice and video traffic based on IP address, MAC address, TCP/UDP ports, and more, guaranteeing smooth performance even in low-bandwidth scenarios. Additionally, the switch offers comprehensive IPv6 support, future-proofing your network and enabling a wide range of IPv6 functions for enhanced network efficiency.

Upgrade to the TP-Link TL-SX3016F JetStream 16-Port 10GE SFP+ L2+ Managed Switch today and enjoy lightning-fast, secure, and scalable network connectivity. With its high-bandwidth aggregation, robust security, centralized/cloud management, advanced features, and future-ready design, this switch is the perfect choice for businesses of all sizes.

FEATURES

- **16× Full 10GE SFP+ Slots**: Lightning-fast full 10 Gbps SFP+ slots provide high-bandwidth aggregation connectivity and non-blocking 320 Gbps switching capacity. Learn More about TP-Link 10G/Multi-Gigabit Switching Solutions
- **Abundant L2 and L2+ Features**: Supports a complete lineup of L2 and L2+ features including Static Routing, enterprise-level QoS, IGMP Snooping, and more.
- **Robust Security Strategies**: Helps protect LAN area investment with integrated IP-MAC-Port Binding, ACL, Port Security, 802.1X Authentication, and more.
- **Dual Redundant Power Supplies**: Two power supplies backing each other up make it an ideal choice for reliable networking architecture.
- **Centralized Cloud Management**: Integrates into Omada SDN for cloud access and remote management.
- **Standalone Management**: Web, CLI (Console Port, Telnet, SSH), SNMP, RMON, and Dual Image bring powerful management capabilities.

WARRANTY

3-year limited warranty
