Description

TP-Link TL-SG3428X | JetStream 24 Port Gigabit L2+ Managed Switch with 4 10GE SFP+ Slots

Introducing the TL-SG3428X JetStream 24-Port Gigabit L2+ Managed Switch with 4 10GE SFP+ Slots. This powerful switch offers lightning-fast speeds and reliable connectivity with 24× gigabit RJ45 ports and 4× 10 Gbps SFP+ slots for high-bandwidth connections. Seamlessly integrated into Omada SDN, it provides zero-touch provisioning, centralized cloud management, and intelligent monitoring for easy network management.

With robust security strategies including IP-MAC-Port Binding, ACL, Port Security, DoS Defend, and more, your network is protected against various threats. Additionally, advanced features such as static routing and L2/L3/L4 QoS ensure efficient network resource utilization and prioritize voice and video applications.

Manage your network effortlessly through cloud access and the Omada app, offering ultra convenience and centralized control. The switch supports multiple management capabilities like web, CLI (Console Port, Telnet, SSH), SNMP, RMON, and Dual Image for powerful and flexible management.

Designed for enterprise environments, this switch features 10G uplink capabilities, non-blocking switching performance, and ultra-low latency, ensuring lightning-fast and reliable connections to servers and other switches.

Experience seamless integration with Omada's SDN platform, enabling complete centralized cloud management of access points, switches, and gateways. Whether in hospitality, education, retail, offices, or more, enjoy scalable wireless and wired connections for optimal performance.

With IPv6 support, advanced QoS, and ISP features like sFlow and IGMP authentication, this switch offers a comprehensive solution for enterprises, campuses, and service providers. Upgrade your network infrastructure and enjoy the benefits of enhanced performance, security, and centralized management with the TL-SG3428X JetStream Managed Switch.

FEATURES

- **10G Lightning-Fast Uplink**: 4× 10 Gbps SFP+ slots enable high-bandwidth connectivity and non-blocking switching capacity. Learn More about TP-Link 10G/Multi-Gigabit Switching Solutions
- **Gigabit Speeds**: 24× gigabit RJ45 ports offer high-speed and reliable connections to other switches and devices
- **Integrated into Omada SDN**: Zero-Touch Provisioning (ZTP)*, Centralized Cloud Management, and Intelligent Monitoring
- **Centralized Management**: Cloud access and Omada app for ultra convenience and easy management
- **Static Routing**: Helps route internal traffic for more efficient use of network resources
- **Robust Security Strategies**: IP-MAC-Port Binding, ACL, Port Security, DoS Defend, Storm control, DHCP Snooping, 802.1X, Radius Authentication, and more
- **Optimize Voice and Video Applications**: L2/L3/L4 QoS and IGMP snooping
- **Standalone Management**: Web, CLI (Console Port, Telnet, SSH), SNMP, RMON, and Dual Image bring powerful management capabilities

*Zero-Touch Provisioning requires the use of Omada Cloud-Based Controller. Note that TL-SG2428P v2 doesn't support Omada Cloud-Based Controller. Please go to Omada Cloud-Based Controller Product List to find all the models supported by Omada Cloud-Based Controller.

**L3 and ISP features can only be configured in standalone mode.

WARRANTY

3-year limited warranty
