TP-Link TL-SX1008 | 8 Port 10G Multi-Gigabit Switch

Unlock the highest performance of your 10G/Multi-Gig bandwidth and devices with the TL-SX1008 8-Port 10G Desktop/Rackmount Switch. This powerful switch features eight 10 Gbps ports, providing lightning-fast connections and up to 160 Gbps of switching capacity.

Ideal for various scenarios, this switch is perfect for business and home offices, workstations, LAN parties, and home entertainment setups. It enables lightning-fast connections to 10G NAS, servers, gaming computers, WiFi 6 access points, 8K video streaming, and more.

Experience optimal 5-speed connections with auto-negotiation, allowing for seamless compatibility and performance across 100Mbps, 1G, 2.5G, 5G, and 10G devices. Say goodbye to lag and enjoy the full potential of your network.

Enjoy low-noise operation with smart fan speed adjustment, ensuring minimal distractions during use. The durable metal casing and heat dissipating design guarantee wide operating temperature range (0–50 °C), making it suitable for any working environment.

This plug-and-play switch allows for easy deployment without the need for a technician. Simply connect your devices and experience the lightning-fast speeds immediately.

The TL-SX1008 is the perfect solution for unlocking the full potential of 10G/Multi-Gig bandwidth and devices. Whether you're working in an office, hosting a LAN party, or enjoying home entertainment, this switch provides the speed, reliability, and performance you need. Upgrade your network today and experience the difference.

FEATURES

- **Eight 10 Gbps Ports:** 8 × 10-Gigabit ports unlock the highest performance of your 10G/Multi-Gig bandwidth and devices, and provide up to 160 Gbps of switching capacity
- **Lightning-Fast Connections:** Provides lightning-fast connections to 10G NAS, Server, 10G PCIe Adapter/ NIC, gaming computer, 2.5G/5G/10G WiFi 6 AP, 8K video, and more
- **Ideal for Various Scenarios:** Built for lightning-fast connections in business and home offices, workstations, LAN parties, and home entertainment
- **Optimal 5-Speed Connections:** Auto-negotiation for 5-speed (100Mbps/1G/2.5G/5G/10G) connections provide optimal performance
- **Low-Noise Operation:** Smart fan speed adjustment ensures minimal noise to be non-distracting when use
- **Wide Operation Temperature:** Durable metal casing and a heat dissipating design guarantee a wide operation temperature (0–50 °C)
- **Plug and Play:** Allows for easy deployment without the need for a technician

WARRANTY

3-year limited warranty
