Description

TP-Link TL-SF1024D | 24-port 10/100Mbps Desktop/Rackmount Switch

Upgrade your network with the TL-SF1024D 24-Port 10/100Mbps Switch. This high-performance, cost-effective switch provides a seamless and standard upgrade to a 100Mbps network. With auto MDI/MDIX support on all 24 ports, installation is

effortless—just plug and play. The innovative energy-efficient technology saves up to 75%* of power consumption and promotes eco-friendly practices with 80% recyclable packaging material.

The TL-SF1024D features TP-LINK Green Technology, adjusting power consumption based on link status and cable length. It complies with EU's RoHS regulations, ensuring a safer and greener environment. Its non-blocking switching architecture ensures maximum throughput, and IEEE 802.3x flow control prevents traffic congestion. The switch's auto features make it easy to use, eliminating the need for configuring and crossover cables.

Upgrade your network with the TL-SF1024D 24-Port 10/100Mbps Switch for enhanced connectivity at an affordable price. Experience hassle-free installation, energy efficiency, and reliable performance. Take advantage of this cost-effective solution to boost your network capacity and productivity.

FEATURES

- 48 x 10/100Mbps RJ45 ports
- Innovative energy-efficient technology saves power up to 50%
- Supports MAC address self-learning and auto MDI/MDIX
- Standard 19-inch rack-mountable steel case

WARRANTY

3-year limited warranty
