TP-Link TL-SF1016DS | 16-Port 10/100Mbps Desktop/Rackmount Switch

Product Images

Description

TP-Link TL-SF1016DS | 16-Port 10/100Mbps Desktop/Rackmount Switch

Upgrade your network with the TL-SF1016DS 16-Port 10/100Mbps Desktop/Rackmount Switch. This high-performance, cost-effective switch provides a seamless and standard upgrade to a 100Mbps network. With auto MDI/MDIX support on all 16 ports,

installation is effortless—just plug and play. The innovative Green Ethernet technology saves power consumption and promotes eco-friendly practices with recyclable packaging material.

The TL-SF1016DS features the latest energy-efficient technologies, automatically adjusting power consumption based on link status and cable length. It complies with RoHS regulations, ensuring a safer and greener environment. Its non-blocking switching architecture guarantees maximum throughput, while IEEE 802.3x flow control prevents traffic congestion. With auto features, installation is hassle-free, eliminating the need for configuring and crossover cables.

Upgrade your network with the TL-SF1016DS 16-Port 10/100Mbps Desktop/Rackmount Switch for improved connectivity at an affordable price. Experience easy installation, energy efficiency, and reliable performance. Take advantage of this cost-effective solution to expand your network capacity and enhance productivity.

FEATURES

- 16 x 10/100M RJ45 ports
- Green Ethernet technology saves power consumption
- Supports MAC address self-learning and auto MDI/MDIX
- Standard 13-inch steel case

WARRANTY

3-year limited warranty
