# TP-Link EAP15 | 300Mbps Wireless N Ceiling Mount Access Point

The EAP110-Outdoor is a 300Mbps Wireless N Outdoor Access Point designed for outdoor Wi-Fi applications. With its high-speed Wi-Fi capabilities and 2x2 MIMO technology, it provides reliable connectivity at speeds of up to 300Mbps. The access point features a durable and weatherproof enclosure, ensuring it can withstand various weather conditions for long-lasting performance.

Installation and deployment are made simple with passive PoE support and a user-friendly mounting design. This allows for flexible deployment options and convenient installation. Enjoy easy network management through cloud centralized management and compatibility with the Omada app, providing convenient control and monitoring of your network.

Security is a top priority with the EAP110-Outdoor. It offers a secure guest network and supports multiple authentication options such as SMS, Facebook Wi-Fi, and vouchers. Additionally, it incorporates abundant wireless security technologies to ensure a protected network environment. With support for management VLAN, network management is enhanced, allowing for efficient control and administration.

Experience reliable outdoor Wi-Fi connectivity with the EAP110-Outdoor. Its high-speed performance, durable construction, easy installation, convenient management options, and robust security features make it an excellent choice for outdoor Wi-Fi applications.

## FEATURES

- Built for outdoor Wi-Fi applications
- Up to 300Mbps Wi-Fi with 2x2 MIMO technology
- High transmission power and high gain antennas provide a long-range coverage area
- Durable, weatherproof enclosure to withstand fair and foul weather
- Passive PoE(Power over Ethernet) support and simple mounting design allow for flexible deployment and convenient installation
- Cloud centralised management and Omada app for ultra convenience and easy management
- Secure guest network along with multiple authentication options (SMS/Facebook Wi-Fi/ Voucher, etc.) and abundant wireless security technologies
- Supports management VLAN for an enhanced network management

†Zero-Touch Provisioning requires the use of Omada Cloud-Based Controller.

## WARRANTY

3-year limited warranty
