

# TP-Link | TL-PA4010P KIT | AV600 Powerline Adapter with AC Pass Through Starter Kit

## Product Images

# TP-Link | TL-WPA4220 KIT | 300Mbps Wireless AV500 Powerline Extender

The TL-PA4010P KIT turns your existing powerline into a high-speed network with no need for new wires or drilling. No configuration is required, simply plug your adapter into your power socket and you can establish networking infrastructure in a flash. In addition, its integrated power socket makes sure that no power outlet is going to waste. With speeds up to 600Mbps and 300 meters over the household electric wires, the TL-PA4010P KIT is a great choice for an easy to build multimedia entertainment network.

## FEATURES

- Data transmission rates up to 600Mbps<sup>1</sup> over electrical wires, ideal for HD video streaming
- Integrated power socket making sure that no power outlet is going to waste
- Plug and play design and easy encryption on a push of pair button
- Power-Saving Mode automatically reduces power consumption by up to 85%<sup>2</sup>

\*1. The theoretical maximum channel data transfer rate is derived from HomePlug AV2 specifications. Actual data transfer rate will vary from network environment including: distance, network traffic, noise on electrical wires, building material and construction, quality of electrical installation and other adverse conditions.

\*2. Actual data will vary because of the network conditions and environmental factors.

## WARRANTY

3-years limited warranty
