# TP-Link | Archer C24 | AC750 Dual-Band Wi-Fi Router

The Archer C24 is an AC750 Dual-Band Wi-Fi Router that offers high-speed Wi-Fi, making it perfect for HD video streaming and high-speed downloading. Its dual-band capability ensures efficient performance across multiple devices, providing a smooth and reliable online experience. The router is equipped with 4× antennas, enabling far-reaching Wi-Fi coverage and establishing stable connections throughout the area.

This versatile router supports Multi-Mode 3 in 1, offering Router, Access Point, and Range Extender modes, giving users the flexibility to adapt to different networking requirements. It also comes with parental controls, allowing users to manage and control internet access for connected devices, making it a great option for families. Moreover, the Archer C24 includes a guest network feature, providing separate access for guests while ensuring the security of the main network.

To enhance the streaming experience, the router supports IGMP Proxy/Snooping, Bridge, and Tag VLAN, ensuring smooth HD streaming and optimized IPTV streaming. Additionally, the Archer C24 is compatible with IPv6, the latest Internet Protocol version, ensuring future-proof compatibility with evolving technologies. With its compact and mountable design, the Archer C24 not only saves space but also complements any décor, making it a practical and aesthetically pleasing addition to any home or office setup.

## FEATURES

- High-Speed Wi-Fi: AC750 dual-band is ideal for HD video streaming, high-speed downloading
- Far-Reaching Coverage: 4× antennas deliver far-reaching Wi-Fi and reliable connections
