## Description

# TP-Link | TL-WR902AC | AC750 Wireless Mini Travel Router

The TL-WR902AC is an AC750 Wireless Travel Router designed with a compact and travel-sized design, making it extremely convenient to pack and carry on the road. This router offers the flexibility to create a Wi-Fi network via Ethernet or WISP

(Wireless Internet Service Provider), ensuring you can stay connected wherever you go. With its Dual Band AC750 Wi-Fi, it provides a strong and fast connection suitable for HD streaming on all your devices, ensuring a seamless online experience even while traveling.

One of the standout features of this travel router is its One Switch for Multiple Modes, allowing you to easily switch between different modes like Wi-Fi at home, in your hotel room, or while on the road. Additionally, the TL-WR902AC provides flexible power options with its Micro USB port, enabling you to connect it to an adapter, portable charger, or laptop for power supply, ensuring continuous connectivity even when traditional power sources are not readily available.

The TL-WR902AC is equipped with a versatile USB port that serves multiple purposes, including file sharing and providing power supply to mobile devices, making it a handy companion for travelers who need to transfer files or charge their gadgets on the go. With its combination of portability, powerful Wi-Fi capabilities, and flexible power options, the TL-WR902AC is an excellent choice for frequent travelers who require a reliable and compact travel router to stay connected wherever their journeys take them.
