TP-Link | ER707-M2 | Omada Multi-Gigabit VPN Router

Product Images

TP-Link | ER707-M2 | Omada Multi-Gigabit VPN Router

The TP-Link ER707-M2 Omada Multi-Gigabit VPN Router is a powerhouse designed to revolutionize your network's connectivity and security. With two 2.5G ports, including 1× 2.5G WAN and 1× 2.5G WAN/LAN ports, this router delivers high-bandwidth aggregation connectivity, ensuring smooth data transfer and reduced latency. What sets it apart is the capability to support up to 6 WAN ports, including 2.5G RJ45, gigabit Fiber, and gigabit RJ45 WAN ports with load balancing, maximizing the utilization rate of multi-line broadband for your network.

Security is paramount in today's digital landscape, and the TP-Link ER707-M2 doesn't disappoint. It features highly secure VPN options, including Enterprise-standard SSL/IPSec/GER§/PPTP/L2TP VPN and OpenVPN, making it ideal for secure communication across multiple branches and facilitating remote work. Integrated into Omada SDN, this router supports Zero-Touch Provisioning (ZTP), Centralized Cloud Management, and Intelligent Monitoring, making network setup and management a breeze. The router also offers extensive security features such as advanced firewall policies, DoS defense, IP/MAC/URL filtering, and more, safeguarding your network and data from threats.

With cloud access and the Omada app, managing your network becomes incredibly convenient, allowing you to monitor and control your network from anywhere. The TP-Link ER707-M2 is the ultimate solution for businesses seeking high-speed connectivity and robust security measures. Upgrade your network today and experience the power of seamless, secure, and efficient network management.

FEATURES

- **Two 2.5G Ports**: 1× 2.5G WAN and 1× 2.5G WAN/LAN ports provide high-bandwidth aggregation connectivity
- **Up to 6 WAN Ports**: 2.5G RJ45, gigabit Fiber, and gigabit RJ45 WAN ports with load balance raise the utilization rate of multi-line broadband
- **Highly Secure VPN**: Enterprise-standard SSL/IPSec/GER§/PPTP/L2TP VPN & OpenVPN are ideal for use across multiple branches and for WFH
- **Integrated into Omada SDN**: Supports Zero-Touch Provisioning (ZTP),**Centralized Cloud Management, Intelligent Monitoring, and more
- **Centralized Management**: Cloud access and the Omada app provide the utmost management convenience
- **Extensive Security Features**: Protect your network and data with advanced firewall policies, DoS defense, IP/MAC/URL filtering, and more security functions

§ These functions are supported only in Standalone Mode.

**Zero-Touch Provisioning requires the use of Omada Cloud-Based Controller. Go to https://www.tp-link.com/en/omada-cloud-based-controller/product-list/ to confirm which models are compatible with Omada Cloud-Based Controller.
