TP-Link | ER8411 | Omada VPN Router with 10G Ports

The TP-Link ER8411 Omada VPN Router is a top-tier networking solution designed to elevate your network's performance and security. Integrated into Omada SDN, it offers features like Zero-Touch Provisioning (ZTP), Centralized Cloud Management, and Intelligent Monitoring for hassle-free network setup and management. With cloud access and the Omada app, you have the convenience of monitoring and controlling your network from anywhere.

This router is equipped with two 10GE SFP+ ports, including 1× WAN and 1× WAN/LAN 10GE SFP+ ports, providing high-bandwidth aggregation connectivity for seamless data transfer and reduced latency. What sets it apart is its capability to support up to 10 WAN ports, including Fiber and RJ45 WAN ports with load balancing, maximizing the utilization rate of multi-line broadband for your network.

Security is paramount, and the TP-Link ER8411 doesn't compromise. It offers highly secure VPN options, including Enterprise-standard SSL/IPSec/PPTP/L2TP VPN and OpenVPN, making it ideal for secure communication across multiple branches and facilitating remote work. Additionally, this router boasts abundant security features such as a powerful firewall, DoS defense, IP/MAC/URL filtering, IP-MAC Binding, and One-Click ALG Activation, ensuring world-class security for your network. Upgrade your network today with the TP-Link ER8411 Omada VPN Router for unmatched speed, convenience, and security.

FEATURES

- **Integrated into Omada SDN:** Zero-Touch Provisioning (ZTP)*, Centralized Cloud Management, and Intelligent Monitoring
- **Centralised Management:** Cloud access and Omada app for ultra convenience and easy management
- **Two 10GE SFP+ Ports:** 1× WAN and 1× WAN/LAN 10GE SFP+ ports provide high-bandwidth aggregation connectivity
- **Up to 10 WAN Ports:** Fiber and RJ45 WAN ports with load balance raise the utilization rate of multi-line broadband
- **Highly Secure VPN:** Enterprise-standard SSL/ IPSec / PPTP / L2TP VPN & OpenVPN are ideal for use across multiple branches and for WFH
- **Abundant Security Features:** Powerful Firewall, DoS defense, IP/MAC/URL filtering, IP-MAC Binding, and One-Click ALG Activation provide world-class security

*Zero-Touch Provisioning requires the use of Omada Cloud-Based Controller. Please go to [Omada Cloud-Based Controller Product List](#) to find all the models supported by Omada Cloud-Based Controller.
