

Cable Labels: Pack of 10 (49 Labels / Sheet): White

Product Images

Description

Sharpmark 's range of cable labels allows you to organise and label installations clearly and professionally, so maintenance and trouble-shooting can be completed efficiently with minimum downtime. Cable labels are supplied on A4 sheets so that you can print your own labels using an office laser printer. There is no need for custom printers to produce clear, professional- looking labels that are durable and easy to read. Using Sharpmark 's innovative free software makes the process simple. Sharpmark self-laminating cable labels are suitable for numerous cable applications, including cables of up to 35mm in diameter. The labels are flexible and have high-performance adhesive, designed to cope with the increasingly harsh environments that network cabling has to tolerate.
