Description

4C | CAT6A U/UTP 23AWGx4P, LSZH Jacket | Supplied on Plastic Reel | 305m Roll Grey

Experience unparalleled connectivity with the 4Cabling CAT6A U/UTP Ethernet Cable, featuring a high-performance 23AWGx4P construction and LSZH (Low Smoke Zero Halogen) jacket. This cable is the ideal solution for those who prioritize safety and reliability in their network installations. The LSZH jacket ensures minimal smoke emission and low toxicity in the event of a fire, making it suitable for environments where safety is paramount. The 305m roll, conveniently supplied on a plastic reel, offers flexibility in installation, allowing you to tailor your network setup to your specific requirements.

The grey color of this CAT6A cable not only adds a sleek and professional aesthetic to your network infrastructure but also signifies its compliance with international standards. With adherence to ISO/IEC 11801, ANSI/TIA-568.2-D, EN 50173, and IEC

61156-5, you can trust that this cable meets the stringent requirements for performance and quality. Whether you are setting up a business network, data center, or home connectivity solution, this CAT6A cable provides the bandwidth and reliability needed for today's data-intensive applications.

Invest in the future of your network with the 4Cabling CAT6A U/UTP cable, offering superior performance, safety features, and compliance with industry standards. Upgrade your infrastructure with confidence, knowing that this cable is designed to meet the demands of today's high-speed data transmission while prioritizing safety and durability.

FEATURES

- U/UTP
- Colour: Grey
- Length: 305m
- Gauge: 23AWG

COMPLIANCES

- ISO/IEC 11801, ANSI/TIA-568.2-D, EN 50173 and IEC 61156-5

WARRANTY

1-year limited warranty
