Description

1RU | 19" rack mount pivot FOBOT splice / patch shelf | Capacity 48 - single mode SC/APC pigtails & simplex SC/APC adapters

Elevate your fiber optic cable management with the 1RU 19" Rack Mount Pivot Splice/Patch Shelf, designed for optimal splicing and patching functionality. This cutting-edge solution accommodates up to 48 single-mode SC/APC pigtails and simplex SC/APC adapters, providing a versatile and scalable approach to fiber optic connectivity. The metallic 19" rack structure ensures compatibility with standard rack sizes, offering a durable and secure housing for your fiber optic components.

The FOCUS-New Pivoting Tray Drawer boasts a user-friendly design, featuring a removable front cover for easy access and maintenance. Its pivoting trays can be strategically mounted inside, with the option for right or left opening based on your specific requirements. Optotec understands the diverse needs of customers, and as a result, the FOCUS NPTD trays can be preloaded with splice array modules, adapters (such as SC and LC), and other commonly used components in the market. This preloaded flexibility streamlines the installation process, saving you time and effort.

Whether you require a patch & splice mixed mode or patch-only configuration, the FOCUS NPTD trays offer adaptable solutions to suit your network demands. Integrate Splitters, Wavelength Division Multiplexers (WDM), and various passive devices seamlessly into the internal layout of the trays. Choose innovation, efficiency, and reliability with the 1RU 19" Rack Mount Pivot Splice/Patch Shelf, ensuring your fiber optic network operates at peak performance with ease of maintenance.

FEATURES

- Elevate fiber optic cable management with 1RU 19" Rack Mount Pivot Splice/Patch Shelf
- Accommodates up to 48 single-mode SC/APC pigtails and simplex SC/APC adapters
- Versatile and scalable approach to fiber optic connectivity
- Metallic 19" rack structure for compatibility with standard rack sizes
- User-friendly design with removable front cover for easy access and maintenance
- Pivoting trays with right or left opening based on specific requirements
- Preloaded FOCUS NPTD trays with splice array modules, SC/LC adapters, and more
- Streamlined installation process for time and effort savings

- Adaptable configurations for patch&splice mixed mode or patch-only setups
- Seamless integration of Splitters, WDM, and other passive devices into tray layout
- Choose innovation, efficiency, and reliability for peak fiber optic network performance.

WARRANTY

3-years limited warranty
