

TP-Link TL-SG3210XHP-M2 | JetStream 8 Port 2.5GBASE-T and 2-Port 10GE SFP+ L2+ Managed Switch with 8-Port PoE+

Product Images

Description

Introducing the TP-Link TL-SG3210XHP-M2 JetStream Managed Switch. This powerful networking solution is perfect for enterprises, campuses, and ISPs. With features like 8× 2.5 Gbps PoE+ ports and 2× 10 Gbps SFP+ slots, it delivers high-performance and lightning-fast connectivity. The switch is designed to unlock the full potential of WiFi 6, providing ample bandwidth for WiFi 6 access points and ensuring a smooth wireless experience.

With integrated Omada SDN, the TL-SG3210XHP-M2 offers zero-touch provisioning, centralized cloud management, and intelligent monitoring. You can easily manage access points, switches, and gateways from a single interface, making network management a breeze. It's an ideal solution for hospitality, education, retail, and office environments.

The TL-SG3210XHP-M2 prioritizes security with features like IP-MAC-Port Binding, Port Security, and ACL. These measures provide robust protection against network threats, ensuring the safety of your data. Additionally, advanced QoS capabilities prioritize voice and video traffic, guaranteeing smooth communication even when bandwidth is limited.

Prepare your network for the future with IPv6 support and take advantage of features like Dual Stack, MLD Snooping, and IPv6 ACL. The TL-SG3210XHP-M2 is designed to meet the demands of modern networks without the need for hardware upgrades. Experience enterprise-level features, enhanced security, and simplified management with the TP-Link TL-SG3210XHP-M2 JetStream Managed Switch.

FEATURES

- **2.5G PoE+ Ports for WiFi 6**: 8× 2.5 Gbps ports smash the gigabit barrier and unlock the full potential of WiFi 6 APs. Learn More about TP-Link 10G/Multi-Gigabit Switching Solutions
- **10G Lightning-Fast Uplink**: 2× 10 Gbps SFP+ slots enable high-bandwidth connectivity and non-blocking switching capacity
- 240 W PoE Budget: 8× 802.3at/af-compliant PoE+ ports with a total power supply of 240 W*
- Integrated into Omada SDN: Zero-Touch Provisioning (ZTP)**, Centralized Cloud Management, and Intelligent Monitoring
- Centralized Management: Cloud access and Omada app for ultra convenience and easy management
- Static Routing: Helps route internal traffic for more efficient use of network resources
- Robust Security Strategies: IP-MAC-Port Binding, ACL, Port Security, DoS Defend, Storm control, DHCP Snooping, 802.1X, Radius Authentication, and more
- Optimize Voice and Video Applications: L2/L3/L4 QoS and IGMP snooping

WARRANTY

3-Year Manufacturer's Warranty
