Description

6 Port Sc Duplex / LC Quad FOBOT DIN Mini Frontplate | Suitable for 015.004.0011

Optimize your fiber optic connectivity with the 6 Port SC Duplex/LC Quad FOBOT DIN Mini Frontplate, a high-performance solution designed to enhance your network infrastructure. Crafted from durable black powder-coated steel, this frontplate ensures both longevity and robust performance in various networking applications. With its versatile design, accommodating both SC Duplex and LC Quad connectors, this frontplate offers flexibility in connectivity options, making it a valuable addition to your fiber optic setup.

Featuring a compact DIN Mini Frontplate design, this product not only saves valuable space but also facilitates easy mounting in diverse applications. The black powder-coated steel construction not only adds to the frontplate's durability but also contributes to a sleek and professional appearance. This makes it suitable for a wide range of environments, including industrial settings and data centers, where both performance and aesthetics are essential.

The 6 Port SC Duplex/LC Quad FOBOT DIN Mini Frontplate is tailored for seamless integration with the 015.004.0011 fiber optic components, ensuring compatibility and a hassle-free setup. Elevate your network connectivity with this versatile, durable, and aesthetically pleasing frontplate, providing a reliable solution for your fiber optic infrastructure needs.

FEATURES

- **Port Capacity:** Accommodates up to 6 ports, providing versatile connectivity options for both SC Duplex and LC Quad fiber optic connectors
- **Connector Types:** Equipped with SC Duplex and LC Quad connectors, ensuring compatibility with a variety of fiber optic components
- **Material:** Constructed from durable black powder-coated steel, offering robustness and longevity in diverse networking environments
- **Compatibility:** Specifically designed for use with the 015.004.0011 fiber optic components, ensuring seamless integration into your network infrastructure
- **Form Factor:** Compact DIN Mini Frontplate design, saving space and allowing for easy mounting in various applications
- **Versatility:** Suitable for a broad range of environments, including industrial settings and data centers, offering flexibility in application
- **Professional Appearance:** The black powder-coated steel construction contributes to a sleek and professional look, making it suitable for installations where aesthetics matter

SPECIFICATION

Measurements:

Material: Black Powdered Steel

WARRANTY

1-year limited warranty
