#### **Description**

# **CAT6A U/UTP Keystone Jack | 10 Pack Black**

Upgrade your network infrastructure with the CAT6A U/UTP Keystone Jack in classic black. This essential networking component

is designed to deliver top-tier performance and reliability for your data transmission needs. With CAT6A capabilities, this keystone jack is well-equipped to handle high-speed data and maintain a stable connection, making it ideal for demanding applications.

The black finish not only adds a sleek and professional look to your networking setup but also offers a neutral and unobtrusive appearance that blends seamlessly into various environments. Its U/UTP (unshielded) design is perfect for situations where electromagnetic interference isn't a concern, providing a cost-effective solution without compromising performance.

Installation is a breeze, thanks to the keystone jack's compatibility with standard keystone wall plates and patch panels. Whether you're setting up a home network or optimizing your business infrastructure, this CAT6A U/UTP Keystone Jack in black is an excellent choice to ensure smooth data transmission and network stability, all while maintaining a clean and professional aesthetic.

#### **FEATURES**

- CAT6A Performance: Enjoy top-tier performance and reliability, making it ideal for demanding applications and highspeed data transmission needs
- Sleek Black Finish: The black keystone jack adds a professional and unobtrusive look to your network setup, blending seamlessly into various environments
- U/UTP Design: This unshielded keystone jack is cost-effective and suitable for situations where electromagnetic interference isn't a concern
- Easy Installation: Compatible with standard keystone wall plates and patch panels, installation is a breeze, making it suitable for both home networks and business infrastructure

### **SPECIFICATIONS**

• Current Rating: 1.5 Amps

Insulation Resistance: ≥500MΩ
Contact Resistance: <10mΩ</li>

• **DC Resistance**:  $\leq$ 0.1 $\Omega$ 

• DC/AV Volt Endurance: DC1000V/AC750V 1min

• Plug Insertion Life: >750 Cycles with FCC Compliant RJ-45 plug

• Plug & Jack Contact Force: ≥100g with FCC Compliant RJ-45 plug

• Plug Retention Force: ≥11lbf

• **Durability**: 200 Termination cycles

Operating Temperature: -10 ~ 60°C
Operating Humidity: 10% ~ 90%RH

• Storage Himidity: -40°C to 68°C

• Housing: Zinc Die-Casting with high quality Nickel plating

• Plastic Parts: High quality engineering plastic

• PCB: FR-4, 1.2mm thickness

• Jack Wire: 0.35mm Phosphor bronze 50U"gold over nickel plating

• IDC Conductor: 0.5mm Phosphor bronze, tin-plating

Contact compatibility: Accommodates 26 to 23AWG solid

## **COMPLIANCES**

- ANSI/TIA-568.2-D
- ISO/IEC 11801-1
- IEC 60603-7 Compliant
- RoHS directive 2002/95/ec compliant

## **WARRANTY**

3-years limited warranty
