Description

1.5m USB 3.2 (3.1 GEN 2x2) USB C M/M Certified Premium Cable | 20G & 100W Support

Unleash the full potential of your USB connectivity with the 1.5m USB 3.2 (3.1 GEN 2x2) USB C M/M Certified Premium Cable – a high-performance solution designed for the modern era of fast data transfer and power delivery. This premium cable is meticulously crafted and 100% passed, ensuring top-notch quality and reliability for all your USB-C connection needs.

Experience hassle-free connectivity with the plug-and-play feature, eliminating the need for additional drivers. The USB-C connection comes with E-Mark technology, guaranteeing efficient power delivery for your devices. With a maximum power delivery of 20V/5A/100W, this cable empowers your setup with robust capabilities to handle high-powered devices, making it an ideal choice for demanding applications.

Moreover, the cable supports blazing-fast data transfer speeds of up to 20Gbps under the Gen 2 standard, ensuring that your data moves swiftly and efficiently. Whether you're transferring large files or connecting 4K displays at 60Hz, this premium USB-C cable delivers the performance you need. Upgrade your connectivity experience with the 1.5m USB 3.2 USB-C Certified Premium Cable – the epitome of speed, power, and reliability in the USB world.
