### Description

## Global 6 Core Security Cable 14/0.20 Unshielded 300m | White

Upgrade your security system with our cutting-edge Global 6 Core Security Cable 14/0.20, designed for unparalleled performance and reliability. Engineered with precision, this cable is ideal for all types of security installations, ensuring seamless connectivity and peace of mind. With its stranded copper conductors and rip cord feature, cable stripping becomes a breeze, saving you time and effort during installation. Plus, its count down metre marking and batch numbering make it easy for installers to track remaining cable length and maintain quality control throughout the process.

## FEATURES

- Supplied in Pull Box with reel for convenient storage and transportation.
- Count down metre marking for easy length identification.
- Batch numbered for quality control assurance.
- CTick and RoHS Compliant for regulatory compliance and environmental responsibility.
