Description

OE Elsafe | 132034 | 80mm Brush Grommet | Silver

The OE Elsafe 132034 80mm Brush Grommet in Silver is a premium cable management solution designed for seamless integration into industry-standard 80mm desktop apertures. Crafted from high-strength, fire-retardant polycarbonate, this grommet boasts an attractive satin silver finish that elevates the aesthetics of any workspace.

Upgrade your workspace with the OE Elsafe 132034 80mm Brush Grommet in Silver, combining functionality, durability, and sleek aesthetics for an organized and professional environment.

Unparalleled Cable Organization

The 53mm diameter high-density nylon brush strip ring effortlessly manages single or multiple power and data cables, preventing dirt and dust ingress while maintaining a neat and organized appearance. This innovative design ensures a clutter-free environment, enhancing productivity and professionalism.

Secure and Versatile Installation

Equipped with a hand-tightened locking nut, the Brush Grommet securely locks into place, ensuring a stable and long-lasting fit. Compatible with surfaces ranging from 1mm to 40mm thick, this versatile grommet accommodates a wide range of desktop and workstation configurations.

FEATURES

- Industry-standard 80mm fit
- Locking nut for secure fixing
- High-strength fire-retardant polycarbonate construction
- Attractive satin silver finish
- High-density nylon brush strip ring for cable management
