Description

Elsafe | PACE 186102 | Pace 45 - 4 x GPO only with 800mm Lead to J Coupler and Desk Bracket | White

The OE Elsafe PACE 186102 Pace 45 - 4 x GPO with 800mm Lead to J Coupler and Desk Bracket in White is a sleek and compact power rail that seamlessly integrates power, data, AV, and TUF USB laptop and mobile charging into desktops and workstations.

Elevate your workspace with the OE Elsafe PACE 186102 Pace 45 - 4 x GPO with 800mm Lead to J Coupler and Desk Bracket in White, combining style, functionality, and seamless connectivity for a productive and organized environment.

Stylish and Space-Saving Design

With its organic shape and minimalist footprint, PACE effortlessly blends into any workspace, taking up minimal desk space while providing essential connectivity. Its elegant design complements the OE Elsafe QIKFIT range, offering a comprehensive soft wiring solution tailored to your needs.

Unparalleled Versatility

PACE's modular design allows for customization to suit most customer specifications, ensuring a personalized solution that caters to your unique requirements¹. Whether used independently or as part of a comprehensive OE Elsafe soft wiring system, PACE delivers unparalleled flexibility and adaptability.

Seamless Installation and Connectivity

Installation is a breeze with PACE's quick and easy top-fix brackets, ensuring a secure and stable fit on your work surface. The rear access opening facilitates effortless connection of data and AV cables, streamlining your workspace organization.
