Description

Aten | UE3310 | USB 3.1 Gen 1 10m Extender Cable with AC Adapter, support 5Gbps data-rate, daisy-chain up to 50m, unique locker head design

The Aten | UE3310 is a highly versatile USB 3.1 Gen1 Extender Cable that efficiently extends the connection distance between a computer and USB devices up to 10 meters. This extension is achieved without sacrificing data transfer speed, maintaining a high-performance link with speeds up to 5 Gbps. The UE3310 is also backward compatible with USB 2.0 and 1.1 standards, ensuring broad compatibility with older devices. Its plug-and-play functionality allows for straightforward deployment without the need for additional software or complicated installation processes.

FEATURES

- **High-Speed Data Transfer:** Maintains USB 3.1 Gen1 data speeds up to 5 Gbps over extended distances
- **Extended Compatibility:** Backward compatible with USB 2.0/1.1 standards, supporting a wide range of devices
- **Ease of Use:** Plug-and-play with no additional software required, simplifying setup and use
- **Extended Reach:** Capable of extending USB connections up to 10 meters, with the possibility of daisy-chaining up to 50 meters for greater flexibility
- **Unique Design:** Features an ultra-slim design and a unique locker head design for secure connections

SPECIFICATIONS

- **Connectivity:** 1 x USB 3.1 Gen1 Type A Male to 1 x USB 3.1 Gen1 Type A Female
- **Environmental Tolerance:** Operates within a temperature range of 0–40°C and a non-condensing humidity range of 0–80% RH
- **Physical Characteristics:** The cable's housing is made of durable plastic, and it weighs approximately 0.76kg
- **Dimensions:** Measures 8.19cm in length, 2.22cm in width, and 1.75cm in height.
