Description

OE Elsafe: Qiksilva 70 - 4 x GPO / 3 x Data Cutouts (AUNZ) with 800mm Lead and 2 x Desktop Clamp Bracket

OE Elsafe Qiksilva takes up just a tiny amount of desk space yet is capable of providing all the electrical and data facilities required in most modern office. When used in conjunction with our current Qikfit range, QikSilva 45 provides a total solution for power, data and AV connectivity at the workstation. The unit can be attached to the desktop using the included brackets, which make for quick and easy relocation when required.

This is the Qiksilva 70 with 4 x GPO, 3 x Data Cutouts (AUNZ) and an 800mm Lead.

FEATURES

- Ergonomic and space saving
- 2 x Desktop Clamp Bracket included
- Designed to allow brackets to be changed onsite
- Snap-outs in the endcaps allow the cables to be routed right or left
- 100% testing - continuity, polarity & earth
