

OE Elsafe: Swift Chassis and Stainless Steel Floor Mounted Power

Product Images

Description

The SWIFT surface mounted box provides an excellent solution for your power, data and AV requirements in open spaces. Providing services directly to the workstations, conference and training rooms where floor boxes are not possible or desired. The simple yet clever design of the SWIFT allows for the installation of standard OE Elsafe QIKFIT series GPO 's and data/AV tiles as well as industry standard wall mounted plates. The unit has been designed with a tool-less "easy lock" movable internal data barrier which can be adjusted to suit required data cable bending radii.

Swift Chassis and Stainless Steel Cover allows for an array of OE Elsafe components including standard QF25 manually or auto switched GPO 's and a range of Data and AV fittings in QF5 tiles.

Features

- Unpopulated model.
- Designed to accept industry standard wall mounted GPO's.
- Allows for an array of OE Elsafe components including standard QF25 manually or auto switched GPO 's and a range of Data and AV fittings in QF5 tiles.
- 'Snip-to-suit' plates act as component mounts or power/data segregation.
- Multi-functional plates are replaceable and lock without the need for tools or screws.
