

3M Ultra Slim Premium High Speed HDMI® cable with Ethernet Supports 4K@60Hz as specified in HDMI 2.0 /w Chipset

Product Images

Description

The new improved ultra-slim Premium High Speed HDMI cable has a smaller plug profile that makes it ideal for use with ever-popular wall-mounted flat-screen TVs. These slimline HDMI leads are compatible with all standard type-A HDMI connectors of Blu-ray and DVD players, LED, LCD and plasma TVs, projectors, media players and games consoles such as the PS4. Not leaving anyone out.

4Cabling's ultra-slim Premium High Speed HDMI cable not only delivers a whopping 18Gbps, other new practicalities of this the cable include high-bandwidth resolution of 4K@50/60 (2160p), which is 4 times the clarity of 1080p/60 video resolution and up to 32 audio channels for a multi-dimensional mesmerising audio experience.

HDMI has become the standard digital connection, delivering the highest-quality audio and video signal over a single cable. 4Cabling's High Speed with Ethernet HDMI Cables are designed and carefully constructed to meet the evolving needs of the high-definition marketplace. These high-quality cables provide high-definition video and multi-channel, digital audio with increased performance characteristics, greater accuracy and expanded features including Internet connectivity for home entertainment devices using a single HDMI connection.

The Premium High Speed HDMI cable also supports ARC (Audio Return Channel), 3D

DOES NOT support HDCP2.2
